

More on Java

Last lecture more information on the Java language and using Java was presented, which can be helpful on assignment #4, albeit use of Java is optional.

The basics needed to do the assignment on Java are already on the class website; specifically:

Basic input, output and numeric comparison:

<http://wpbcsc115.weebly.com/uploads/1/3/6/8/13682593/csc115compare.pdf>

Generating and using Random numbers:

<http://wpbcsc115.weebly.com/uploads/1/3/6/8/13682593/simplerandomnumbers--first-two-pages-only.pdf>

In the second link, please look over every page to obtain a better feeling of how to do random number generation and usage in Java.

Final note: Java is **NOT** required for assignment #4, Scratch can be used if desired.
